

Dear Sirs:

I am an avid KLOVE listener. I enjoy very much listening to KLOVE radio. KLOVE provides clean, positive, and encouraging music to my city and I believe to our nation. I believe our community would be damaged without KLOVE. Another broadcaster might broadcast music that would encourage lifestyles that are against my beliefs. KLOVE provides clean and obscenity free programming. KLOVE provides alternatives to the hard rock, rap, and other kinds of music I don't want to hear. The impact of much of today's music is promoting and teaching our people that we don't need morals or laws and that anything goes. We need KLOVE. Please don't make any changes to hurt KLOVE's broadcasting abilities.

Thank you,
Steve Butler
